RICCARDO PITZANTI

Data Analytics Engineer

riccardopitzanti@gmail.com +39 348 1833297 linkedin.com/riccardopitzanti

EDUCATION

Sapienza Università di Roma | Master's Degree - Computer Science (LM-18) 2024 - ongoing

- Final Score: ?/110 (Current Weighted Average: 28.75)
- Relevant Coursework: Network Performance, Cybersecurity, Distributed and Concurrent Systems, IoT, Data Science, Blockchain, Machine Learning, Big Data, Cloud Computing.
- Sample Project – Designed a serverless ETL pipeline using AWS Lambda, S3 and Python to perform NLP-based Named Entity Recognition on event-driven data streams, gaining experience in cloud-based data processing, analytics workflows, and containerization concepts (Docker, Kubernetes). Technical report: link.

Sapienza Università di Roma | Bachelor's Degree - Informatica (L-31) 2024

- Final Score: 106/110
- Relevant Coursework: Programming, Database Management, Computer Architecture, Mathematics, Network, Theory of Computation, Algorithms, Computer Graphics, Web Development, Cybersecurity.
- Thesis: Development, comparison, and application of natural language processing techniques for extracting socio-demographic features from self-reported data on social media.

EXPERIENCE

Side Hustle

olbia, it (and remotely)

Qualified Tutor | Centro Studi ABC feb 2021 - ongoing

- Designed and taught customized curricula in STEM subjects for over 100 high school and university students.

Extra-Curricular Activities

rome, it

CyberX-Mind4Future | Leonardo - Sapienza Universita' di Roma feb 2023 - mar 2023

- Placed in the top 20% after a national training program and a CTF competition, earning selection for the final cyber-attack and defense simulation at Leonardo's Cyber Range in Rome.
- Gained experience in drafting incident reports and identifying system- and network-level vulnerabilities through collaborative team activities.

CyberChallenge | Sapienza Universita' di Roma feb 2021 - may 2021

- Admitted to the program (top 13.70%) and placed 7th in the final Capture The Flag (CTF) competition.
- Completed hands-on and theoretical training in cryptography, hardware security, and web security.

SKILLS

Technical Python, Java, SQL, HTML/CSS/JS/PHP, LaTeX, C++, Git, Docker, Firewall Configuration.

Analytical Algorithm optimization, software engineering, problem-solving, data interpretation.

Language Italian (Mothertongue), English (C1 FIRST Certificate - Score: 181/190).

INTERESTS

DJ Since 2016, played at many public and private events in Sardinia, my homeland.

Technology Enthusiast Passionate about technologies and their ethical implications, with a distinct focus on their societal impact.

Finance and Economics Self-taught in financial models, economics, and financial instruments, with a special interest in personal finance.
